About Salmonfarm

Salmonfarm's roots trace back to the 1980s, when the Liljeqvist family began farming fish in the Finnish archipelago. In 1989, they acquired a processing plant in Kasnäs and founded Ab Salmonfarm Oy.
Three decades on, the company remains family-run, now led by its second generation, and has grown into one of Finland's leading producers of farmed rainbow trout. Combining traditional Nordic craftsmanship with modern processing and full traceability from sea to plate.

Fillets

Premium fillets from Finland

Fillets - Naturel

Format: Frozen
